

## Jing-Zhang In Place | Six Taskbook Deliverables

12 scenario cards → 3 deep validations → 9 ordinary-space / NO-BUILD outcomes

01

### CONCEPT + IDENTITY

Name, Logo direction, 3 positionings, 5 functions, 3 areas + 2 wings

02

### ECOSYSTEM + CASES

5 public method cases; land, funding, talent, compute and data are gates, not promises

03

### 12 SCENARIOS

6 personas; S01/S04/S07 test only whether a reversible specialist delta is justified

04

### PUBLIC SPACE

Heritage park, surface continuity, Dazhongsi service interface, 3 reversible landmarks

05

### CULTURE + SIGNS

Jing-Zhang resilience, Zhongguancun exchange, bilingual STATUS + ACTION + human help

06

### ANNUAL OPERATION

Evidence Week, developer rehearsal, supervised opening, archive/expiry/reset

# 12 scenario cards

S01/S04/S07 deep validation; nine ordinary-space or NO-BUILD

## Twelve Cards | 3 Deep Tests + 9 Ordinary-Space / NO-BUILD Results

**S01**

Embodied AI physical validation

Outcome: minimum reversible delta

Human authority: propose, operate and stop are separate

DEEP TEST

**S02**

Environmental robustness rehearsal

Outcome: ordinary-space sufficient / NO-BUILD

Human authority: human review and stop

NO-BUILD

**S03**

Human safety and evidence review

Outcome: ordinary-space sufficient / NO-BUILD

Human authority: human review and stop

NO-BUILD

**S04**

Multi-modal collaboration handover

Outcome: minimum reversible delta

Human authority: propose, operate and stop are separate

DEEP TEST

**S05**

Open AI literacy and model explanation

Outcome: ordinary-space sufficient / NO-BUILD

Human authority: human review and stop

NO-BUILD

**S06**

Community service co-pilot with human counter

Outcome: ordinary-space sufficient / NO-BUILD

Human authority: human review and stop

NO-BUILD

**S07**

Staffed adoption and compliance review

Outcome: minimum reversible delta

Human authority: propose, operate and stop are separate

DEEP TEST

**S08**

Step-free wayfinding assistance

Outcome: ordinary-space sufficient / NO-BUILD

Human authority: human review and stop

NO-BUILD

**S09**

Post-rain greenway maintenance check

Outcome: ordinary-space sufficient / NO-BUILD

Human authority: human review and stop

NO-BUILD

**S10**

Facility status relay with analog fallback

Outcome: ordinary-space sufficient / NO-BUILD

Human authority: human review and stop

NO-BUILD

**S11**

Community event quiet-boundary stewardship

Outcome: ordinary-space sufficient / NO-BUILD

Human authority: human review and stop

NO-BUILD

**S12**

Evidence-status change review

Outcome: ordinary-space sufficient / NO-BUILD

Human authority: human review and stop

NO-BUILD

Every card retains baseline, privacy boundary, failure mode, stop/reset, evidence status, area relation and taskbook mapping.

# Three deep delivery contracts

Test only whether professional deepening is justified

SOURCE-BACKED KNOWN / GEOMETRY-DERIVED PROVISIONAL / DESIGN RULE / CONCEPT PROPOSAL / UNKNOWN / PAUSE

|                                                                                                                                      |                                                                                                                                                                |                                                                                                                                           |
|--------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| <div>S01</div> <div>Confirm whether a removable safety edge can contain a real physical task without reducing ordinary access.</div> | <div>S04</div> <div>Confirm that a consent-bound handover can coexist with open learning without converting a public room into a closed project enclave.</div> | <div>S07</div> <div>Confirm that an affected user can see, contest and leave an AI adoption review without losing ordinary service.</div> |
| <div>STOP / RESET</div> <div>Remove kit and return to ordinary training/work.</div>                                                  | <div>STOP / RESET</div> <div>Retract screen, clear materials and restore ordinary public learning.</div>                                                       | <div>STOP / RESET</div> <div>Stop intake, retain ordinary referral and remove screen.</div>                                               |

# Public space, culture and operation

Three reversible landmarks and a stoppable annual cycle
